

DECLARATION OF

IMMUTABLE AND IRREVOCABLE CANONICAL TERMINOLOGY

"Immutable and irrevocable, even by me."

Document Type	Canonical Terminology Declaration
Version	1.0 - Initial Establishment
Effective Date	July 3, 2026, upon electronic execution

Prepared for execution, ONESTAMP certification, and publication.

1. Purpose and Establishment

This declaration formally establishes the phrase **"immutable and irrevocable, even by me"** as canonical terminology for use within the author-maintained body of work, records, frameworks, and associated documentation governed by the Declarant.

2. Operative Declaration

A matter designated as "immutable and irrevocable, even by me" is not subject to rescission, reversal, amendment, reinterpretation, dilution, suspension, or override by any party, including the original declarant.

3. Defined Meaning

Term	Canonical Meaning
Immutable	The designation, decision, status, or boundary may not be altered, edited, weakened, superseded, reclassified, or rendered provisional.
Irrevocable	The designation, decision, status, or boundary may not be withdrawn, cancelled, undone, reversed, or nullified.
Even by me	The authority of the original declarant does not create an exception. The phrase expressly removes the possibility of self-reversal after designation.
Combined effect	The phrase establishes a final and continuing canonical condition whose force does not depend upon future consent, reconsideration, external pressure, convenience, or passage of time.

4. Scope and Application

- Applies whenever the exact phrase is used to designate a decision, boundary, status, term, principle, canon entry, record, or operative instruction.
- Applies to direct restatements and faithful references to the designation, including documents that quote or incorporate it by reference.
- Does not apply retroactively to unrelated material unless that material is expressly marked with the exact phrase or is incorporated through a clear written reference.
- Cannot be reduced to a temporary preference, emotional expression, negotiating position, ordinary personal opinion, or merely emphatic language.

5. Interpretation and Implementation Rule

Any person, system, collaborator, reviewer, or future record applying this terminology shall preserve its full force. Interpretation must favor finality and non-reversibility. No later explanation, informal statement, implied change of position, or outside request may be

CANONICAL DECLARATION

treated as a modification unless this declaration itself is formally superseded by a higher-order governing instrument that explicitly identifies and replaces it.

6. Canonical Authority

Upon execution, this document is the authoritative initial record defining the phrase **"immutable and irrevocable, even by me."** In any conflict between a casual, incomplete, or diluted use of the phrase and this declaration, this declaration controls unless a later governing record expressly states otherwise.

7. Execution, Certification, and Publication Record

By signing below, the Declarant confirms adoption of this terminology and authorizes the document for electronic execution, ONESTAMP certification, archival, and public publication.

Declarant	Nathan Lewis
Capacity	Author and Canonical Declarant
Electronic Signature	_____
Date of Execution	_____
